Dave Call

Product Management | Product Leadership | Digital Platforms

American Fork, UT | (530) 507-8269 | mdavidcall@gmail.com | http://www.linkedin.com/in/mdavidcall

PROFESSIONAL SUMMARY

Marketing technology and e-commerce leader who translates business needs into working digital products and connected systems. Combines hands-on application development with customer and market analysis, cross-functional leadership, and financial judgment. Experience spans requirements definition, workflow design, customer-facing commerce, and evidence-based decisions about product and business opportunities.

CORE STRENGTHS

- Data-Driven Decision Making
- Cross-Functional Leadership
- Market Research
- Workflow Design
- Product Requirements Development
- Customer Experience Design
- Financial Analysis
- AI-Assisted Development

SELECTED RESULTS

- Conceived and built Gecko, an AI-assisted job-search platform integrating multi-source discovery, candidate-fit evaluation, tailored resume generation, and application tracking.
- Conceived and built Space Force, formerly Crush, an AI marketing command center combining advertising analytics, account audits, organic-search insights, reporting, and evidence-backed recommendations.
- Intercon: Modernized the company's digital environment and launched multiple B2C channels while protecting relationships with more than 650 B2B retail partners

PROFESSIONAL EXPERIENCE

Marketing/Technology Manager - Vortex UTV - American Fork, UT Jan 2024–Present

- Developed and customized a headless UTV e-commerce storefront using React, Next.js, TypeScript, and Shopify GraphQL APIs, combining product discovery, customer accounts, cart functionality, and hosted checkout.
- Built a Google Merchant Center feed and product structured-data layer from a shared offer model to align variant identifiers, pricing, availability, and product information across advertising and storefront outputs.
- Implemented GA4 e-commerce and engagement tracking for product discovery, cart interactions, searches, filters, and contact intent, with documented controls to prevent duplicate checkout and purchase events.
- Created customer-account workflows for registration, authentication, password recovery, address management, and order-history access through Shopify APIs.
- Applied AI-assisted development to connect e-commerce requirements with reusable components, typed integrations, documentation, and targeted quality checks.
- Improved technical SEO through canonical URLs, pagination validation, redirects, XML sitemaps, product schema, and index controls.

Marketing Strategist/Analyst - 1-800-Contacts - Draper, UT Nov 2022–Jun 2024

- Conducted customer lifetime value (LTV) analysis, affiliate commission analysis and discount negotiation, and AI-assisted promotion performance analysis using Namogoo
- Designed and interpreted reach, comparison, conversion, micro-conversion, and internal lifetime-value funnel testing, including click-to-call systems assessment and iSpot analysis for TV/OTT reach campaigns

- Used regression models, prior-year/prior-period data, holdouts, geo-promotional tests, scale-up/down analysis, and budget reallocation scenarios to forecast investment outcomes and support recommendations involving substantial incremental media budgets
- Built complex Tableau dashboards for paid search and helped convert existing Power BI reporting to Tableau

Director of Digital Marketing - GRIP6 - Midvale, UT May 2022–Jan 2023

- Built Looker Studio KPI reporting for multiple departments, improving transparency for inventory planning, engineering decisions based on reviews, management decisions, website development, email performance, and cross-platform budget management
- Created a robust spreadsheet-based inventory planning methodology used across multiple departments
- Consulted on SEO best practices and on-page optimization and coordinated marketing priorities with web, operations, creative, and other stakeholders
- Configured GA4 and custom Google Tag Manager measurement/reporting

Intercon Inc - Salt Lake City, UT Feb 2018–Feb 2020

- Applied project-by-project cost-benefit analysis to prioritize growth initiatives, marketplace opportunities, product investments, and operational improvements
- Developed e-commerce-specific products with manufacturers and improved supply-chain processes
- Designed the company's information architecture and ERP-system flow and implemented systems to increase productivity, efficiency, transparency, and collaboration
- Conducted daily financial analysis to identify niches and product opportunities
- Directed digital marketing and e-commerce for a large B2B distributor, coordinating execution and reporting across marketing, sales, operations, finance, IT, and product teams

Director of E-Commerce/Marketing - LifeSpan Fitness - Salt Lake City, UT Jun 2013–Aug 2016

- Led an eight-person e-commerce team responsible for paid search, customer acquisition, campaign delivery, website performance, and growth across the U.S., Canada, and U.K
- Conducted advanced keyword research, channel analysis, trend monitoring, acquisition analysis, conversion-path and funnel analysis, landing-page optimization, and conversion-rate optimization
- Created business goals, annual projections, and KPIs with senior management and reported data from Magento, Google Analytics, ACCTivate, QuickBooks, and advertising platforms

Marketing Strategy & Development - Bowen Law Professional Group - Salt Lake City, UT Jan 2009–Jun 2013

- Conducted comprehensive market research, persuaded management to add new services, and oversaw their development and implementation. Worked with leadership to create tax and finance departments that together contributed more than 25% of firm revenue
- Developed and managed content strategy covering timing, content type, placement across blogs, mail, email, and the website, content focus, and personalization
- Converted all paper forms into electronic, interactive formats using Adobe Acrobat and LiveCycle, increasing the speed and quantity of market-data acquisition
