

DAVE CALL

WEB TECHNOLOGY, DATA & AUTOMATION PROFESSIONAL

Lehi, UT 84043 • (530) 507-8269 • mdavidcall@gmail.com • linkedin.com/in/mdavidcall • Spanish: Fluent

PROFESSIONAL SUMMARY

Technology and digital operations leader with 14+ years applying web technologies, scripting, data systems, automation, and analytics to real business problems. Proficient in HTML5, CSS3, JavaScript, Python, SQL, PHP, VBA, Git, XML, and API-based workflows, with experience supporting Magento, Shopify, WordPress, databases, reporting systems, and cross-functional web initiatives. Known for learning new tools quickly, investigating complex systems, documenting repeatable processes, and collaborating with technical and business teams to deliver reliable, measurable improvements.

CORE COMPETENCIES & TECHNICAL SKILLS

Web & Programming: HTML5, CSS3, JavaScript, Python, SQL, PHP, VBA, XML, object-oriented programming, Git, GitHub, VS Code, APIs, relational databases, and web development support.

Platforms & Data Systems: Magento, Shopify, WordPress, Salesforce, HubSpot, Google Ads API, ERP systems, marketing databases, GA4, Google Tag Manager, Databricks, Tableau, Looker Studio, and Adobe Analytics.

Automation & Troubleshooting: Custom scripts, workflow automation, campaign monitoring, data integration, reporting pipelines, database consistency, process improvement, technical research, and issue investigation.

AI-Assisted Technical Work: Codex, ChatGPT, Claude, Perplexity, Cursor, and AntiGravity for code-assisted workflows, research, analysis, scripting, documentation, troubleshooting, and quality review.

Collaboration & Delivery: Cross-functional project management, requirements translation, stakeholder communication, distributed-team collaboration, prioritization, documentation, customer support, and continuous learning.

PROFESSIONAL EXPERIENCE

Marketing Strategist / Analyst | 1-800 Contacts — Draper, UT

- **Automated Data Systems:** Used Python, SQL, Databricks, Excel, Funnel.io, and Tableau to build an automated weekly reporting workflow spanning more than 10 platforms.
- **Complex Analysis:** Investigated attribution, customer value, bidding, audience, promotion, and channel data and translated findings into testable recommendations and operating decisions.
- **Technical Evaluation:** Assessed Click-to-Call and iSpot systems and built dashboards and statistical models to improve visibility into customer journeys and program performance.
- **Team & Portfolio Leadership:** Managed \$30 million per month with a team of four, coordinating analysis, testing, reporting, and investment decisions across a complex portfolio.

Director of Digital Marketing | GRIP6 — Midvale, UT

- **Web Measurement Implementation:** Configured custom GA4 reporting and Google Tag Manager implementations while partnering on website optimization and technical SEO.
- **Cross-Functional Dashboards:** Built Looker Studio reporting that connected marketing data with inventory, engineering, management, web development, email, and operating priorities.
- **Systems-Based Planning:** Created a robust spreadsheet methodology used across departments to connect inventory data, product availability, operating needs, and business decisions.
- **Digital Operations:** Managed interconnected advertising, ecommerce, analytics, and reporting platforms while improving monthly volume from \$200K to \$800K and ROAS from 1.5 to 3.5.

Director of E-Commerce & Marketing | Intercon Inc. — Salt Lake City, UT

- **Digital Transformation:** Helped move a large traditional distributor into a functional digital environment by improving information architecture, ERP workflows, databases, collaboration, and ecommerce systems.
- **Database & Reporting Integrity:** Developed and maintained multiple company databases to improve consistency across departments and support accurate financial and marketing reporting.
- **Web & Commerce Platforms:** Added multiple B2C ecommerce platforms, supported Amazon Vendor and Seller Central operations, and expanded into Target.com, Costco.com, CastleGate, and other channels.
- **Technical Project Leadership:** Worked with IT, operations, finance, product development, HR, and sales leaders while managing changing priorities, systems implementations, reporting, and process improvement.

SEM Manager / Project Manager | The Infinite Agency — Dallas, TX

- **JavaScript Automation:** Developed custom scripts for continuous campaign monitoring, budget oversight, and faster identification of performance issues across client accounts.
- **Reusable Operating Systems:** Created a standardized quality system for 75+ accounts that was adopted across the agency to improve consistency and service delivery.
- **Data Integration & Visualization:** Consolidated data sources with Funnel.io and presented actionable findings through Looker Studio while using analytical platforms to investigate account behavior.
- **Testing & Models:** Created conversion and attribution models and multivariate tests to evaluate audiences, channels, messages, and landing-page behavior.

E-Commerce Manager | LifeSpan Fitness — Salt Lake City, UT

- **Web Team Collaboration:** Partnered with web developers on site performance, SEO/SEM, landing pages, conversion paths, and changes needed to support promotions and business goals.
- **Human-Assisted Automation:** Used JavaScript-based automation to adjust campaign behavior around promotions and business goals while retaining human oversight.
- **Technical Analytics:** Used Magento, Google Analytics, ACCTivate, QuickBooks, platform editors, and Amazon analytics to report KPIs, projections, conversion paths, and business performance.
- **Research & Optimization:** Conducted keyword, competitive, funnel, and acquisition analysis; developed experiments; and improved landing pages and conversion rates through structured testing.
- **Team Leadership:** Led an eight-person ecommerce department and coordinated paid search, outreach, customer acquisition, analytics, web collaboration, and operational planning across three countries.
